**COMMUNICATIONS – PUBLIC:**

**Warren Nash** spoke in favor of G-13-02. He explained that since he has been a member of the Board of Public Works and Safety they have approved approximately 18 roadblocks at different locations in the city and it is very unsafe to have the individual standing out in the road when the cars are passing by. He stated that all the charities that are being collected for are very good organizations but he is afraid that someone is going to get hurt and the firemen even stopped collection because of the safety issues. He and urged the council to pass the ordinance.

**Pat Lilly** 2823 Plantation Court stated that he strongly opposes G-13-02 because he and his family do this at Spring and Silver for the Salvation Army which is a very worthy organization and it is one way they can help in a good, positive way. He stated that safety issues are important and they take every precaution and they have never had any issues in all the years they have been doing this. He explained that they collect on average over \$2,000.00 a year and it is very helpful to the Salvation Army. He asked if they pass an ordinance like this what is next to stop people from running or riding bikes because it is too dangerous. He asked that the council vote this ordinance down.

**David Stemler** stated that he is on the Salvation Army Advisory Board and they raise approximately \$6,000.00 per year through roadside collections. He stated that they follow all of the requirements that the city has now and wouldn't mind more requirements being imposed but it would be detrimental to their organization to lose this income.

**Gregory Roberts** with the E. Spring Street Neighborhood Association stated that he is in favor of G-13-01 and G-13-02. He explained that they also need to look at all ordinances on the book and how they enforce all the codes that are on the books.

**COMMUNICATIONS – CITY OFFICIALS:**

**Mrs. Benedetti** asked if the mayor has put together the City Park Board.

**Mr. Robison** stated that he is not sure and would not like to comment on it at this time but he will ask him about it.

**APPROVAL OF CF-1 FORMS:**

**INTRODUCTION OF ORDINANCES AND RESOLUTIONS:      READING**

G-13-01	An Ordinance Prohibiting the Placement of Furniture and Appliances Outdoors	Phipps 1&2
---------	---	------------

**Mr. Phipps introduced Bill No. G-13-01 for first and second reading, Mr. Coffey second, all voted in favor.**

**Mr. Phipps** stated that this is regarding overstuffed, indoor furniture and appliances. He explained that the furniture gets wet and holds mold which creates health problems. He stated that he looked up the penalties for this type of violation and it will be \$25 for the first offence, \$50 for the second, and \$100 for the third and this is in keeping with the other ordinances on the books.

**Mrs. Benedetti** stated that she would be in favor of increasing the fines.

**Mr. Phipps** stated that he thinks that would be a separate ordinance.

**Mr. Coffey** stated that there are some items that are being put out on Friday's along the road which is setting there on the weekend so he would love to add that it be put into the ordinance that it needs to be set out at least two days before pick-up.

**Mr. Phipps** explained that this is for people that have these things sitting permanently in their yards but that may be something they need to address in this as well.

**Mr. Coffey** stated that it probably needs to be under another ordinance as well so they should look to see if they have anything else that addresses this.

**Mr. Zurschmiede** stated that he totally agrees with the ordinance for the most part but some people have outside kitchens with appliances and some patio furniture that resembles indoor furniture so who will decide what is what.

**Mr. Phipps** stated that he believes that it can easily be discerned if they have a patio area with these things in good working order but if it is an abandoned piece of equipment that isn't connected or running.

**Mr. Zurschmiede** explained that they have so many ordinances that are not being enforced and he doesn't know what to do to improve that situation.

**Mrs. Benedetti** stated that she understands where he is going with this but she wishes that there were some alternative plans for these individuals to raise money.

**Mr. Phipps** stated that there some stores that allow charitable collections and there are other campaigns through the internet and the public right-of-way is a very dangerous place to be doing this.

**Mr. Blair** asked if there were any statistics at the local and national level regarding those that have gotten hurt while doing these types of collections.

**Mr. Phipps** stated that he doesn't but he is sure they could get something before the next meeting.

**Mr. Blair** stated that he agrees with Mrs. Benedetti and asked if there was a way to modify their regulations to make it safer instead of getting rid of it all together so they have a way to raise money.

**Mr. Gonder** asked if the fact that the Board of Works issues a permit could there be a waiver of some type that could be issued or required.

**Mr. Robison** stated that they could do a waiver of liability but it really is a safety issue.

**Mr. Coffey** stated that he has been involved in non-profits in the past and they did cook-outs or car washes instead of standing out in the road because it was a safety issue. He stated that there are a lot of people out on the weekends in the summer that are standing there holding buckets out for money and it is a huge safety issue.
